## OFFICIAL STATEMENT ON NEW CONSTITUTION MADE BY DE VALERA

**Free State President Declares All Ireland Sovereign Independent State, but Provides for Continuance of "International" Co-operation in Matters of Common Concern**

DUBLIN, May 1 (P).—The new "constitution of Ireland" was officially issued today by President Eamon de Valera of the Irish Free State. Declaring all Ireland, which is given its ancient name of "Eire," a "sovereign, independent democratic state," the constitution contains two provisions regarded as intended to cover Northern Ireland in the event of fusion of the two parts of the country now separately administered.

It also provides for continuance of "international co-operation in matters of common concern," without mentioning directly the King or the British Commonwealth of Nations.

**INTERNATIONAL RELATIONS**  
In this regard it proposes that the Eire Government may "avail or adopt any organ, instrument or method in the League of Nations with which Eire is or becomes associated, for the purpose of international co-operation in matters of common concern."

Provision is made that, pending reintegration of the national territory and without prejudice to the right to exercise jurisdiction of all Ireland, the constitution shall be applicable only to the existing Free State area.

Provisions regarding dealing with Northern Ireland were that subordinate legislatures may be recognized and English may be permitted to be the sole official language of a portion of the country.

**THE OFFICIAL LANGUAGE**  
Otherwise Irish becomes the national language, with English relegated to second place. At present Irish and English enjoy equal status in the Free State.

## SUCCESSOR TO BE SWORN IN

**Alberta's Minister of Agriculture Must Resign or Will Be Ousted**

EDMONTON, April 30 (P).—D. B. Mullen, Social Credit member of the Legislature for Edmonton, will be sworn in at 11 a.m. tomorrow as Alberta Minister of Agriculture to succeed Hon. W. N. Chant, it was announced here tonight.

If Mr. Chant, Minister of Agriculture since the Government took office on September 3, 1935, refuses to resign in compliance with the Premier's demand, he will be ousted by order-in-council.

In reply to Premier Abernethy's demand of late Wednesday that he vacate his post, Mr. Chant today refused—temporarily at least—to accede to the request, and asked for "more definite reason" for the Premier's action.

**"HARDLY REASONABLE"**

"In any event it could hardly be considered as a reasonable request to ask a responsible minister of the Crown to vacate his office upon short notice without giving adequate reasons," added the member for Camrose, second member of the Cabinet to be asked by the Premier to resign.

When the Premier, late on Wednesday, asked for Mr. Chant's resignation within twenty-four hours, he declared he had felt for some time there was "need of more aggressive and higher efficiency in the Department of Agriculture, of which you are minister."

Providing Mr. Chant fails to resign, the Government will ask Lieutenant-Governor J. C. Bowen to cancel his appointment.

## General Franco Refuses To Respect Ships Aiding In Refugee Evacuation

**Insurgent High Command Determined to Maintain Bilbao Blockade**

**BRITISH REQUEST FLATLY REJECTED**

HENDAYE, Franco-Spanish Border, April 30 (P).—Insurgent General Francisco Franco tonight informed the British Government he would not promise to respect foreign ships in Spanish waters taking part in evacuation of refugees from Bilbao.

Officials of the British Embassy, to Spain, temporarily located here, said the insurgent high command had insisted it was determined to maintain the naval blockade of the Basque capital in conjunction with its land offensive.

**ANSWERS BRITISH INQUIRY**

This was in reply to a British inquiry as to whether General Franco would permit free passage to British and French ships removing women and children from Bilbao.

Britain and France might still participate in a peaceful evacuation of Basque non-combatants, the official said. They added, however, that "unreasonable physical difficulties" would prevent removal of 150,000, a figure suggested in Bilbao. Lack of sufficient vessels was one of the difficulties, they said.

## Women Gain Right to Vote In Philippines

MANILA, May 1 (P).—Returns today from a commonwealth plebiscite indicated Philippine women would win the right to vote in future elections by a wide margin.

Nearing 300,000 votes to gain suffrage under a constitutional provision, the insular women polled 293,243 for and 30,243 against the proposal, with returns to come from six provinces and three cities.

## Horticultural Show Attracts Throngs of Visitors to Willows

**Island Association Annual Exhibition Opened by Hon. W. L. Walsh, Former Lieutenant-Governor of Alberta—Doors to Open 10 o'Clock Today**

A RIOT of color blended with the heavy perfume of countless varieties of flowers, and shrubs attracted hundreds of visitors to the main building in Willows Park yesterday afternoon where the Vancouver Island Horticultural Association's annual Spring Flower Show was opened by Hon. W. L. Walsh, former Lieutenant-Governor of Alberta, who admitted he was attracted to Victoria by its beautiful gardens.

The exhibition will be open today from 10 o'clock in the morning until 10 o'clock in the evening.

In introducing the distinguished Albertan who now resides here, Judge P. S. Lampman offered hearty congratulations to officials and exhibitors at the outstanding Spring Flower Show.

## Anti-Government Parties Scoring Heavily in Japanese Poll

TOKIO, May 1 (P).—Early election returns from four large voting centres today indicated sweeping victories for Minseit and Seiyukai parties opposed to the Government. Not a single Government candidate for the House of Representatives was elected in the towns of Fukushima, Wakamatsu, Kainan and Matsue.

An unprecedented number abstaining from voting was recorded in six leading cities of Japan, averaging 40 per cent, with Osaka heading the list with 52 per cent abstaining.

The Japanese Home Office announced a total of 565 election violations involving 903 persons, of which sixty-eight were charged with bribery.

## Pattullo Gov't Charged With Waste of Funds

**Conservative Leader Discusses Party Manifesto at Trail and Attacks Liberals for Broken Promises —Anscumb Says Loan Raised to Buy Election, Citing Speech at Esquimalt**

TRAIL, April 30.—Rossland-Trail electors heard Dr. Frank P. Patterson, provincial Conservative leader, for the first time at a public meeting here tonight. Herbert Anscumb, member of the last Legislature for Victoria, appeared with him. The two speakers dealt with the Conservative manifesto and voiced criticisms of the Pattullo Government.

The Conservatives will contest the riding, and a nominating convention will be held in a day or two.

Dr. Patterson vigorously attacked the Pattullo Government on what he declared were its broken election pledges.

**ROYAL CITY BRIDGE**

Referring to alleged waste of money on roads "to please political favorites here and there," the speaker said the Premier now travels by air, presumably to escape the wrath of those who have to use the bad roads of the province. The \$4,000,000 expended needlessly on the Westminster Bridge, he said, would have made roads in the Interior of the province.

Dr. Patterson charged that the natural resources of the province are rapidly disappearing through Continued on Page 6, Column 5

## DEADLINE DECIDED FOR COAL STRIKE

**National Walkout Called for May 22 Unless Miners' Federation Given Recognition**

LONDON, April 30 (P).—Great Britain tonight faced a national coal miners' strike on Saturday, May 22. Delegates of the Mine Workers' Federation, in conference here, decided to call the strike on that date unless the federation is given full recognition in the Nottinghamshire coal field.

Joseph Jones, president of the federation, announced that all district leaders would be instructed to hand in strike notices to the owners so that they would all expire simultaneously.

The federation was empowered to call the strike in a ballot on April 15 and 16 of miners in England and Wales. The vote showed 444,546 union members in favor of a strike with 61,445 opposed.

## BOMB SINKS BATTLESHIP MAKING HISTORY FOR AERIAL WARFARE

**One Killed When Three Planes in Mid-Air Collided**

SOBORTON, Hampshire, April 30 (P).—A Royal Air Force pilot was killed and two others escaped in parachute jumps today when three planes crashed in mid-air. The crash was the twenty-fifth fatal Royal Air Force accident this year, and caused the forty-seventh fatality.

**Spanish Insurgents' Espana Goes to Bottom After Direct Hit Amidships From Air With Possible Loss of 700 Lives—Sent to Intercept British Food Carrier**

**Madrid Expecting Intense Bombardment for May Day**

BILBAO, Spain, April 30 (P).—Government warplanes today sank the Spanish insurgent battleship Espana with a possible loss of 700 lives, in history's first aerial destruction of a major war vessel.

The ship went down at 9:45 a.m., the Santander Government announced, four miles off Cape Mayor, in the Bay of Biscay, in thirty-two and one-half fathoms of water.

Government trawlers and the insurgent destroyer Velasco were believed to have rescued most of the crew, normally 854 officers and men. Government fishing boats picked up 110 and the Velasco was said to have picked up officers and some men who jumped into the sea. There remained, however, between 700 and 744 not specifically accounted for if the Espana were fully manned.

**TO AID FREIGHTER**  
Santander dispatches related that five Government bombers put out to aid the British freighter Brora carrying food to Santander shortly before 9 a.m.

The 16,140-ton Espana, with her eight twelve-inch guns ready for action, was sent to aid the Velasco to keep the Brora from entering port.

The Government bombers circled and at 9 a.m. scored a direct hit amidships. With a hole through her bottom, the reports said, the Espana settled quickly by the stern, took a list to starboard and sank forty-five minutes later.

**THROUGH SMOKESTACK**  
One report related that the fatal aerial bomb burst through the Espana's smokestack, dropped below deck and exploded her munitions magazine.

The British cruiser Shropshire found only floating wreckage at the Continued on Page 4, Column 4

## Vancouver Entry Wins High Praise

OTTAWA, April 30 (P).—The Strolling Players, of Vancouver, and the Toronto Masquers, the latter in a play written by a Canadian, tonight won high praise from adjudicator Michel St. Denis as the fifth Dominion Drama Festival neared its close.

The adjudicator said the Vancouver group in parts of the fourth and fifth acts of Rudolph Besier's "The Barretts of Wimpole Street" presented a "very good performance which I am really astonished to see."

## YUKON COUNCIL SENDS PROTEST

**Territory Wants Plebiscite Taken on Proposed Merger With British Columbia**

DAWSON, Y.T., April 30 (P).—The Yukon Council today passed a resolution, "firmly and emphatically" protesting the proposed addition of this northern territory to the Province of British Columbia.

The Territorial Council of three elected members, comprising the governing body of the Yukon, decided to send to the Governor-General-in-Council a memorial setting forth opposition to place the territory under administration of its neighboring province.

In the first official comment on the annexation, announced by Premier Pattullo last Monday as having been agreed between the Province and the Federal authorities, the Territorial Council "respectfully pray that no action be taken to carry out the proposal without the approval of a majority of the people of the Yukon first having been given by plebiscite."

## Infant Mortality In Quebec Rises

QUEBEC, April 30 (P).—Infant mortality rate for the Province of Quebec, in the first two months of 1937, increased more than 25 per cent over the same period last year, according to a report issued today by the Department of Health.

## AUSTRALIAN FLYER PASSES ALLAHABAD

ALLAHABAD, India, April 30 (P).—H. F. Broadbent, Australian aviator attempting a record solo flight from that Dominion to London, arrived here tonight after a three and one-half-hour flight from Rangoon, Burma. He left for Gwalior, India, after a brief rest.

## Five Big Provinces in Canada With North Added Is Proposed

**B.C.-Yukon Amalgamation Only Part of Much Bigger Scheme to Partition Dominion Under Few Governments, It Is Believed Here**

WHILE members of the Provincial Government declined yesterday to comment on antagonism expressed to the union of British Columbia and the Yukon, circles very close to the Ministry said that the proposal announced this week by Premier Pattullo had a far deeper significance than has as yet been disclosed.

This was, they intimated, part of a broader plan to consolidate the nine Provinces of Canada into a smaller number of Provinces, with the whole of the northlands absorbed under various provincial control, it was asserted.

**FEWER PROVINCES**  
While the exact division and reorganization of boundaries has not as yet been suggested, the expectation here appeared to be that British Columbia and the Yukon would become one.

## MANY PARADE ON MAY DAY

**Police Take Precautions to Prevent Fresh Outbreaks Of Violence**

(By the Associated Press)  
May Day demonstrators marshaled their forces today for parades, speech making and pageantry.

In several centres the police took precautionary measures against any fresh outbreaks of the violence that has attended some celebrations in the past.

Communists, Socialists and Labor groups sponsored the shows in a number of cities scattered through Europe and North America.

The Red Army massed troops and field forces in Moscow for a display of military might in a march past a Red Square reviewing stand occupied by chiefs of the Soviet Union. The spectators expected to see 1,000 military planes in flight.

**HOLIDAY IN FRANCE**

French Communists and Socialists mobilized for commemoration of their first May Day under the Popular Front Government. A public holiday was declared.

Mexico City authorities faced the problem of laying out parade routes to prevent bitterly quarrelling labor organizations from clashing. Vera Cruz, Orizaba and other cities were tense with the possibility of clashes between the rival organizations.

## AT LARGE FROM OAKALLA PRISON

Edward Degraze, Serving Term for Assault, Escapes When Working on Farm

BURNABY, B.C., April 30 (P).—British Columbia police spread their dragnet over the Lower Mainland late this afternoon in efforts to recapture Edward Degraze, who escaped from Oakalla prison between 4 p.m. and 5 p.m.

The twenty-four-year-old prisoner, serving a one-year term for assaulting a police officer at Prince George, B.C., was working on the prison farm when he made his escape. He was missed just before 5 p.m.

Degraze was described by prison authorities as 5 feet 5 inches tall, weighing 129 pounds, and with dark brown hair and eyes. He was clean-shaven, and has a prominent scar on his chin.

## NANAIMO'S NEW BRIDGE OPENED

**Ceremony Performed by Ald. Kerr—Mayor Barsby Gives Address**

NANAIMO, April 30.—Before a large crowd of citizens, who gathered to witness the ceremony, Bastion Street Bridge, built at a cost of \$45,000, was officially opened this evening at 6:30 to vehicular traffic by Alderman J. Kerr, chairman of the streets committee, who cut a strip of white satin ribbon.

What blocked the traffic until His Worship Mayor J. Barsby gave a brief address.

Immediately a stream of automobiles and trucks formed a procession and passed over the concrete structure, which had been closed since May 23, 1936.

Mayor Barsby congratulated the ratepayers for endorsing the referendum to build the bridge, which, he said, would always stand as a monument to Nanaimo citizens of today for their foresight and faith in the city. He thanked them for placing his name on a brass plate on the bridge and expressed the opinion that better things were in store for Nanaimo.

T. Dixon, past president of Vancouver Board of Trade, brought congratulations from the Mainland. The skirt of the pipes followed the procession, in charge of Piper Gilchrist, and women carried home pieces of the satin ribbon to preserve as souvenirs.

## THREE CONVICTED OF MANSLAUGHTER

**Two Men and Woman Found Guilty in Death of Miner in Vancouver**

VANCOUVER, April 30 (P).—Fred Hogarth, fifty-year-old former Saskatoon railway brakeman, his wife Elizabeth and William Woodcock, Vancouver private investigator, tonight were convicted of manslaughter by an Assize Court jury in the "knock-out drop" death of Michael Sheridan, sixty-three-year-old prospector.

Mr. Justice Fisher remanded the three, who were charged with Sheridan's murder, to the end of the Assize for sentence.

Sheridan, a Princeton, B.C. miner, was found dead in the room of a downtown rooming house here on March 15.

The Crown charged the accused, in efforts to obtain divorce evidence against Sheridan, plied him with liquor which contained chloral hydrate.

# Visitors Challenge Island Contestants At Musical Festival

## Several Trophies and Awards Go to Vancouver, Portland and Seattle Competitors—Folk Dancing and Elocution Classes Begun Yesterday

FRESH filip of interest was given to the Musical Festival yesterday by the opening of the folk dancing and elocution competitions. Each drew big audiences, the gallery and available floor space at the High School gymnasium being crowded with spectators for the folk dancing, and the lower hall of the First Baptist Church holding another interested audience for the elocution.

Mrs. C. H. Dunbar, Kamloops, adjudicator for the elocution, by special invitation appeared at the First United Church last evening and made a short address in which she championed the cause of elocution, "the poor Cinderella of the arts," she advocated a teacher of elocution at Normal Schools, so that teachers would be able to teach the subject. The value of elocution as a speaking, which was clearly a thing apart from singing, was emphasized. This was a new thing, but widely recognized for its value in blending the low and high tones of the voice and giving a sense of continuity and rhythm.

### EVENING HIGHLIGHTS

Nine choirs in all competed in the various classes last night, making it a pre-eminent "choir" evening. Other interest was provided in ensemble speaking of verse by four groups; the baritone vocal solo contest, and the mixed quartette. The piece de resistance of the evening, however, was the extremely beautiful playing of Alvin Hudson, the fourteen-year-old Portland boy who had won the Senior Strings championship earlier in the day. Introduced by Arthur Benjamin in glowing terms, this gifted young genius was clamorously applauded after his playing of the fifteenth century "Minstrel."

Trophies that found owners were the P. W. Francis Challenge Shield, won by the Victoria School of Expression in a close contest with Dunsmore Studio Choir, Nanaimo, last year's winners, and the Richmond High School Choir, Eburne; the J. C. Pender Challenge Shield, won by Victoria High School Girls' Choir with an advantage of one mark over their nearest competitor; The Colonist Challenge Shield, taken by the Ariel Singers. Without competition, this choir was highly complimented by Dr. Frederick Station as being well trained and doing "a very delightful piece of vocal work."

Dr. Station also warmly congratulated the Elizabethan Singers' Quartette, the only entrant in Class 34, for the quality of its ensemble and the splendid sense of color and good balance of its work.

Of the small choirs contest, competing for the Gyro Club Challenge Shield, won by Garden City United Church, he said that if they sang this well in the regular way, it would stimulate church attendance.

### BRILLIANT VIOLINIST

Some of the best trophies offered for competition in yesterday's contests at the Musical Festival went to out-of-Victoria contestants. The sensation of the day, for instance, was the playing by Alvin Hudson, Portland, a brilliant young violinist whom the adjudicator, Arthur Benjamin, enthusiastically described as "a fiddler of great promise," and who modestly carried off the coveted Holroyd Paul Cup in the senior championship string competition after having earlier in the morning secured the splendid marking of 93 in the intermediate violin class.

Mr. Benjamin, in his comment on this young player's work, said that such a performance sent a thrill

down his spine. The test piece was "Minstrel," a fifteenth century composition arranged by Dushkin. Later, Alvin Hudson played beautifully the Beethoven Romance in F, the test piece for the open violin class, but in which he was not competing because his teacher, Mary Dodge, Portland, did not think he was quite advanced enough.

Vancouver competitors took the prizes in Class 152, elocution (Bobby Burns); Class 153, elocution, junior (Annie Laurie Forrester); Class 70, vocal solo for girls under 16 (Corrine Davis); Class 155, elocution, intermediate (Barbara Kelly); Class 154, elocution, junior, boys (Jamie Oliphant), and a Seattle girl, Mary A. Golden, captured The Times Cup for the Junior Strings championship.

### DANCING BEGINS

At the Victoria High School gymnasium, the folk-dancing contests were begun yesterday afternoon, galleries and seating space on the floor being filled to capacity with highly-enthusiastic spectators.

The adjudicator, Mrs. Cotsworth Clarke, Vancouver, who has been coming here almost consistently since the inception of the Victoria Festival, expressed great satisfaction with the character of the work in the five classes that came on the floor in the course of the afternoon. In her general summing up, she particularly expressed her pleasure in the boys' entry, Class 143, where an "A" and "B" group from St. Louis College and a group from Bank Street School put on a spirited contest for the Victoria Women's Institute Cup. The winners in this were the "A" team from St. Louis College, performing the "Donegal Dance."

"Folk dancing is essentially for boys as well as girls, and for men as well as women—not just for girls," said the adjudicator. Boys were good folk dancers when they took it up, and she was very glad to see, too, that one of the public schools had taken the trouble to learn and attempt the difficult Morris dance. This was but a beginning, and if they kept up their work they would have an excellent team in two or three years' time.

### SPORTING SPIRIT

"In all the dancing I have seen this afternoon a very good sporting spirit has been shown," Mrs. Cotsworth Clarke said, in referring to the dancing competitions as a whole.

The floor at times presented a brilliantly animated appearance with the different groups of dancers wearing the national dress of the various countries represented. The singing games brought a keen contest from the schools of the city, Oaklanda winning the trophy against competition from Spring Ridge, Sir James Douglas, Quadra and Monterey Schools. St. Margaret's School took the two highest ranking marks in the Grades 9 to 12 High School entry, capturing the Lady Barnard Cup held since last year by Victoria High School.

The excellence of the group spirit was commented on by the adjudicator, also the improvement in technical detail. Teachers today understood what they were to teach, and when there were faults they knew about them. As far as the work of the adjudicator was concerned, decisions were much closer—the margin between the marks for the best and the weakest was not great. Teachers had done well to train such large groups of children as were seen in some of these classes.

### ELOCUTION WORK

In the lower auditorium of First Baptist Church, Mrs. C. H. Dunbar, of Kamloops, began her work of adjudicating the elocution classes yesterday. She commented, in her general summary, on the excellent standard. The boys' work called for special comment, eleven entries being good for the primary class. The girls' junior group, with thirty-four competitors, had also brought out a talented group. All classes were asked to beware of over-dramatization. She had also found the general fault that competitors were inclined to intone rather than to speak. Another point to guard against was breathing through the mouth instead of the nose.

Speaking to competitors in Class 57, vocal solo, where the singer had to play an accompaniment, George Dodds said that this could be a nice accomplishment for home occasions. It was better to sing without the music, if possible. In platform work, regardless of the place, the first necessity was that the audience should be able to see the eyes of the performer; therefore, the singer should try to face the audience instead of turning towards the piano in this self-accompanied singing.

The oratorio class, competing in the afternoon, was also heard at the First Baptist Church by Mrs. Dodds, and the winner was Thomas Crabbe, who took the important George Frederick Handel Trophy. Singers in this class were reminded that the speed of oratorios was fixed by tradition. Expression could be obtained by a variety of nuance and color. The man who had not studied coloring his tone would never be successful in either oratorio or operatic work, for its established mood.

## Interesting Exhibit at Flower Show

The above view shows a miniature waterfall, pond and rocks at the Vancouver Island Horticultural Association's Spring Flower Show in the main building at Willows Park. Hundreds of visitors, including many from neighboring cities, visited the exhibition yesterday to admire the masses of flowers, shrubs and trees.

## HART SPEAKS ON FINANCES

### Dominion - Provincial Relationships Touched Upon

By Byron Johnson

A prognosis that the burden of social services would be lifted from the shoulders of the municipalities following the long-promised conference between the Dominion and the provinces, was made by Hon. John Hart, when he addressed the Liberals of Ward Three last evening. The Minister of Finance coupled with his remarks, praise of the work of Byron Johnson, member for Victoria in the last Legislature, and intimated that he was to have greater responsibilities placed upon his shoulders.

"Mr. Johnson is a man of outstanding abilities," remarked Mr. Hart. "Prior to the election which unseated the Tolmie Government, I made no promises, but I did suggest that the Liberals, if elected, would abolish the Meal Tax Act, make a reduction on the tax on lower salaries, and obtain assistance for the municipalities in the matter of social services," he continued. "I also suggested that the provincial debt would be six million dollars more than that admitted by the administration."

### AID MUNICIPALITIES

"We did those things. We took over social service costs which amounted to \$601,000. Further, three days after I took office, I found the provincial debt was \$7,500,000 more than our predecessors had suggested."

The subject of the relationship of British Columbia to the Dominion was also discussed by Byron Johnson, who stressed the fact that it was an utter impossibility for the province to produce commodities at less price than they brought in the open market, and still do business. He maintained that Eastern manufacturers were subsidized, yet wages were lower than those paid in this province.

Alderman W. T. Straith, Mrs. H. P. Hodges, Alex Peden and Archie Aitken, who are also candidates for nomination at the Liberal convention to be held next Tuesday, spoke briefly. Fifty-four delegates to the convention were named.

## DE VALERA ISSUES EIRE'S CONSTITUTION

Continued from Page 1

Hailed as a personal triumph for De Valera, the document declares the "inalienable" right of the Irish people to choose their own form of government and provides for election of a president by direct vote. De Valera will offer the new constitution for ratification in a plebiscite, to be held simultaneously with the general elections, expected late in June.

"AFFIRMS ITS RIGHT" "The Irish nation," the new constitution reads, "hereby affirms its inalienable sovereign right to choose its own form of government, to determine relations with other nations and to develop its life, political, economic and cultural, in accordance with its own genius and traditions."

The second article proclaims the national territory as consisting of "the whole of Ireland, its islands and territorial seas."

The president would be elected by a direct vote of the people for a seven-year term, and would take precedence over all others. He would be able to leave Ireland only with the people's consent.

NATIONAL PARLIAMENT The national parliament would be made up of the president and the two houses, Dail and Senate, in which would be vested exclusive powers for making laws. The Dail members would be chosen through adult suffrage.

De Valera abolished the former Senate a year ago on the grounds that it frustrated the wishes of the people. The new Senate would consist of sixty members, with eleven nominated by the Taoiseach (prime minister) and forty-nine elected by the entire estate. Under Article 13 of the new constitution the President of Ireland, who will be elected, will appoint, on nomination of the Dail Eireann, a Taoiseach, who will head the Government as prime minister. It is expected the constitution will go before the Dail for approval before it is submitted to the people.

## Spring Horse Show Given at the Willows Draws Large Crowd

### Proceeds of Riding Academy's Noteworthy Display of Horsemanship Will Go to John Howard Society—Kitsilano Boys' Band Acclaimed

THE Kitsilano Boys' Band from Vancouver shared the honors and applause accorded the riders in the Spring Novelty Horse Show, which attracted hundreds of spectators to the Willows last evening. The horse show building was gaily decorated for the event with flags, and the boxes and seats were filled with an enthusiastic crowd.

Introduced by Capt. D. B. Carley, master of ceremonies, the Mayor of Victoria, Andrew McGavin, opened the show at 8:30 o'clock. The Mayor congratulated the Victoria Riding Academy upon its work in preparation for the show and upon its interest in the John Howard Society, towards which the financial proceeds will be devoted. This cause, which was devoted to helping discharged prisoners to re-establish themselves in the community, was one which was to be highly commended, His Worship said.

### THE BAND

Under the baton of Arthur W. Delamont, the Kitsilano Boys' Band played at intervals during the programme, the opening numbers being the march, "Heroic" (G. E. Holmes), and the overture, "If I Were King" (A. Adam). Then followed the grand march, the riders forming a semi-circle in the ring and receiving the applause of the spectators. Other numbers played by the band as special selections were "March of the Comedians" from "The Bartered Bride" (Smetana), and "Robert" (Bismarck) and selections from "The Vagabond King" (Rudolf Friml).

### CHILDREN'S RIDING

The jumping and riding, which was of exceptionally high standard throughout the show, reflected the greatest credit upon those responsible for the training of those taking part, and the children's riding was noteworthy. Those taking part in this event were Misses M. Ford, O. Parris, P. Williams, J. O'Connor, N. Jardine and Master J. McIlreath. Little Miss O. Parris, on Vesta, gave a brilliant exhibition of jumping and received great applause. In the intermediate jumping class were Misses Peggy Angus, I. Johnson, Rachel Jukes, Peggy McMurray, Pam Mitchell and Masters S. Thompson, C. Carley and N. Little. With the utmost ease, the youngsters cleared the two brush jumps in the ring, their style being commented upon by those who appreciated the finer points of jumping.

## Frank Burton Again Heads Executive of Real Estate Board

Annual Meeting of Body Goes on Record in Praising Laudable Work of Mayor McGavin and Council in Economics

FRANK Burton will serve another term as president of the Victoria Real Estate Board. At the annual meeting of the organization yesterday, in Spencer's dining-room, he was re-elected for a second term. H. D. Patterson was named first vice-president. The second vice-president is R. H. Shanks, while the executive committee selected for the year as a result of the ballot is as follows: T. J. Goodlake (ex-officio), J. O. Bridgman, James Forman, W. H. Davies, Alex Gillespie and P. J. D. Pemberton.

Mr. Burton reviewed the past year's activities, concluding with thanks to the members of the executive for their support and the special praise was accorded the secretary, Hubert Lethaby, for his arduous work. The secretary, in his annual report, showed that there were fifty-three members of the board and urged a drive for additional members.

The installation of the new executive was conducted by Mayor H. Cuthbert Holmes. He expressed the opinion that there was a great work being carried on by the board, which was not as fully recognized as it deserved to be.

### PRaise FOR COUNCIL

James Forman paid a compliment to Mayor Andrew McGavin and the City Council for the excellent work done in reducing taxation this year. It was no small achievement, and he suggested that the board go on record in offering its appreciation of what had been done. Taxation had been reduced by about 8 per cent. This cut was all the more praiseworthy in view of the fact that there was a 5 per cent reduction in the assessment by the assessor as well. The reversion of some 6,000 properties to the city

from the taxable number was a great handicap, he declared.

Mr. Forman moved that appreciation of the board be conveyed to the mayor and council for their accomplishment. This was seconded by F. E. Winslow, and carried unanimously.

Alderman W. T. Straith spoke of the aid that was always given the council by the Real Estate Board. He made special mention of the good work done by the City School Board in the move to help the city in a financial way.

### MAKE IMPROVEMENTS

Speaking in the absence of the mayor, Alderman Straith said that it was the hope of the council that as a result of the work done this

FRANK BURTON

year in reducing taxation, there would be an inducement offered owners of property to make improvements.

W. C. Moresby, K.C., chairman of the school board, told of the trying situation that the board had faced this year when called upon to make decided reductions in the estimated expenditures. The board, however, felt it was necessary, and in spite of the fact that a new curriculum was called for and at the same time the initiation of the junior high school, it was agreed the call of the mayor and council could not go unheeded.

It must be remembered, stated Mr. Moresby, that there was under the school board \$1,500,000 worth of property, and in some of the schools it had been thirteen years since paint had been applied.

### DEMAND FOR HOUSING

George I. Warren, for the Chamber of Commerce, expressed regret that the president, Harold Husband, was unable to be present.

Mr. Warren alluded to the tremendous number of tourists who would be entertained in Victoria this season. He prophesied that with three new ferries operating, there would be an enormous taxing of the housing facilities of the city this year.

## Thomas McLay Is Given Remand to Tuesday Morning

THOMAS McLay was formally charged in the city police court yesterday with manslaughter arising out of the death of Louis Paul Burbridge at the corner of Fort and Vancouver streets on Wednesday night. Stuart Henderson, who appeared as counsel for the accused, accepted the suggestion of C. L. Harrison, city prosecutor, that adjournment of the hearing should take place until next Tuesday, thus allowing for the inquest to be held on Monday.

measured number of tourists who would be entertained in Victoria this season. He prophesied that with three new ferries operating, there would be an enormous taxing of the housing facilities of the city this year.

H. G. Garrett and E. H. Bridgman, representing departments of the Government closely allied with the board, spoke briefly of the good work done by the board. Reeve Alex Lockley, of Esquimalt, also spoke, and R. B. Sewell voiced the regrets of Reeve William Crouch, Sanich, on being absent, owing to illness.

## AUTO THIEVES TO SERVE YEAR

John M. Caird and Jack Humphreys Sentenced to Terms in Jail By City Magistrate

John M. Caird and Jack Humphreys, jointly charged in the city police court with the theft of an automobile belonging to Mrs. Orin Currie, whose cases have been before the city police magistrate for several days, were sentenced by Magistrate Hall yesterday to terms of twelve months in jail.

Caird had pleaded not guilty and called several witnesses yesterday to support his claim to innocence. Humphreys acknowledged the offence, pleading guilty.

## SHIP ENTERS GOLDEN GATE

Only Few Feet Between Bridge and Top of Britain's Masts

SAN FRANCISCO, April 30.—Her towering masts reaching within a few precarious feet of the bridge's lower deck, the 42,500-ton flagship of the Canadian Pacific fleet, the Empress of Britain, passed under the mighty Golden Gate Bridge here, yesterday, with 431 world cruise passengers.

Safety nets strung under the bridge, where work is still in progress, had been removed, and nine feet had been taken from the liner's tall masts to permit the ship's passage under the world's longest suspension bridge; but even at that, Captain G. Parry, R.D. R.N.R., Nova Scotia-born commander of Canada's mightiest ship, confessed that the passage under the arch was close enough to give him a thrill or two.

While the Empress of Britain's world cruising passengers, drawn from all parts of the United States, Canada, Great Britain and Europe, lined the decks to peer up into the skyscraping superstructure of the Golden Gate Bridge, San Franciscans greeted the arrival of the biggest liner yet to reach their port from points of vantage on Russian, Telegraph and Nob Hill. They witnessed a spectacular marine view as the white ship sailed up into the Golden Gate and under the bridge amid dazzling California sunshine.

Passengers debarked for sight-seeing trips throughout the city over the new Oakland-San Francisco Bridge, and some of them for overland tours to the Yosemite Valley and as far as Los Angeles, where they will rejoin the ship Saturday.

Dotted with names notable in the social, financial, business and theatrical worlds, the passenger list included Syd Chaplin, brother of the comedian, Charlie Chaplin, and a producer himself, Ascot, Eng.; Sir Oliver Duncan, London banker; Lady Sassoon, wife of Sir Victor Sassoon, the London, Shanghai and Bombay financier; Viscount Edgar de Lessart, Nicos; E. S. Goodrich, Winchester, Ind., banker and brother of the former Illinois governor, and Paul Martell, the cognac king.

clude the 1936-37 season, will be held, by the kind invitation of Mr. and Mrs. K. C. Symons, at their home on May 25.

FINED FOR DRIVING TO COMMON DANGER

NANAIMO, April 30.—Pleading guilty to a charge of driving to the common danger in connection with a collision between his car and a car driven by Dr. R. B. Dier, of this city, when both cars were badly damaged and Dr. Dier suffered shock and slight injuries, Thomas G. Stubbs, of Port Alberni, paid a fine of \$25 and costs in provincial police court today. The accident took place last Sunday morning near what is known as Deadman's Curve, Wellington, where many accidents have occurred in past years.

## Little Stories for Bedtime

Grandfather Frog Loses Heart By THORNTON W. BURGESS

Look before you leap; The water may be deep.

That is the very best kind of advice, but most people find it out when it is too late. Grandfather Frog did. Of course he had heard that little verse all his life. Indeed, he had been very fond of saying it to those who came to the Smiling Pool to ask his advice. But Grandfather Frog seemed to have left all his wisdom behind him when he left the Smiling Pool to go out into the Great World. You see it is very hard work for anyone who has been sought after for advice to turn right around and take advice themselves. So Grandfather Frog had been getting into trouble ever since he started out on his foolish journey. He had gotten into a scrape after another, and he had landed in it hand first with a great splash.

Of course when he had seen the cool sparkling water of the spring it had seemed to him that he just couldn't wait another second to get into it. He was so hot and dry and dreadfully thirsty and uncomfortable. And so—Oh, dear me! Grandfather Frog didn't look at all before he leaped. No, sir, he didn't. He just dived in with a great long jump. Oh, how good that water felt. For a few minutes he couldn't think of anything else. It was cooler than the water of the Smiling Pool, because, as you know, it was a spring. But it felt all the better for that, and Grandfather Frog just closed his eyes and floated there in pure happiness.

Presently he opened his eyes to look around. Then he blinked them rapidly for a minute or so. He rubbed them to make sure that he saw right. His heart seemed to sink way, way down toward his toes. "Chugurum!" exclaimed Grandfather Frog. "Chugurum!" And after that for a long time he didn't say a word.

You see it was this way: All around him rose perfectly straight, smooth walls. He could look up and see a little of the blue, blue sky right overhead and whispering leaves of trees and bushes. Over the edge of the smooth, straight wall grasses were bending. But they were so far above his head, so dreadfully far. There wasn't any place to climb out. Grandfather Frog was in a prison. He didn't understand it at all, but it was so.

Of course Farmer Brown's Boy could have told him all about it. A long time before Farmer Brown

## SUSPENSION OF SENTENCE ASKED

Case of C. B. Fisher Adjourned Until This Morning in Oak Bay Police Court

In the Oak Bay police court yesterday afternoon, C. B. Fisher was brought before Magistrate H. C. Hall again on an adjournment of the charges that he had forged certain affidavits connected with the placing of names on the Provincial list of voters.

After the accused had, through his counsel, J. B. Clearihue, K.C., pleaded guilty to the offences, Chief John Syme explained the circumstances of the case. The accused had been employed as a deputy registrar and on not finding at home the persons whose names were sought to be placed on the list, he had made the false declarations.

Mr. Clearihue pointed out there was no attempt to hide what had been done and the accused had labored under a wrong impression as to what he had a right to do. Rev. E. F. Church testified to having known for three years the accused, who had suffered from nervous trouble. Other witnesses also testified to his good character.

When Mr. Clearihue asked for suspended sentence, the question arose as to the consent of the Attorney-General's department being obtained. C. L. Harrison said that the consent of the deputy attorney-general had not been secured, as would be necessary. The case was adjourned until this morning at 11 o'clock in order to communicate with the deputy attorney-general.

## STATE MEDICINE

Perhaps no one has pointed out more of the shortcomings of the compulsory health insurance scheme than the chairman of the Health Insurance Commission. Ostensibly that Commission is marking time, its members twiddling their thumbs, awaiting the decision of the people in the coming plebiscite. In reality, the assumption is that it is preparing campaign material to be used by the proponents of the measure on the hustings. There is little that can be added to what has already been said. The Commission's chairman already, in a broadcast address, has made the official apology for the shortcomings in the present legislation.

He claims that were too liberal payment to be made to doctors, druggists or hospitals, the Commission would be subjected to criticism for not safeguarding the interest of the contributors. That viewpoint, no doubt, dictated the offer of payments to the medical profession which would be pitifully inadequate for the services to be rendered. It is claimed that when a patient is critically ill he will be entitled to care, yet such illness may extend over six months, or a year, or longer, and there will be only health insurance payment for hospitalization extending over ten weeks. Thereafter such patient must fend for himself. He may, because of his sickness, have no wage or salary. He is legally a beneficiary of health insurance, but only for a prescribed term.

There is the case of those who may pay their taxes for health insurance over a period of a year, or more, have no illness which is covered by the scheme, and then find themselves out of work. The only consolation the Health Insurance Commission has to offer to such is that while they paid their taxes they were protected. When they are ranked with the unemployed, no matter how sick they may be, they are no longer beneficiaries under compulsory health insurance. The answer made by the Commission to the complaint that even now there is inadequate hospital accommodation in the Province is that this problem would exist with or without health insurance. The problem, it is said, is not one for which the Health Insurance Commission is responsible, and yet that Commission promises hospitalization to all its patients. If it is to implement that promise, then it must insure that the hospital accommodation is provided, and it must realize, too, that under the compulsory scheme there will be a large increase in the number of hospital patients.

The Act does not provide for any payments by the insured other than those stipulated in the legislation. The Health Insurance Commission, however, has decreed that there will be a charge to the patient for the first home call of a doctor, the charge to be \$1 for a day call and \$1.50 for a night call. Moreover, every patient under the health insurance scheme must, in the first instance, consult a general practitioner, whereas he may have been under the care of a specialist for a year or more. This is an entirely superfluous provision which has aroused adverse criticism. More and more nowadays the specialist is entering into his own. He is the highly-trained man in specific diseases or specific health conditions. Where it is a case of eye or ear or throat or heart, or pulmonary trouble, or cerebral disease, or a score and one other complaints that could be mentioned, the patient, where possible, desires the services of a specialist. Under health insurance the general practitioner is the middleman and that practitioner must be paid a fee, apart from the health insurance levies, for a first visit. The Health Insurance Commission believes that the Act on the Statute books will raise the standard of medical practice; just how it is not stated. The medical profession, on the other hand, has different views on the subject. Most certainly the plan devised for British Columbia will not raise the standard of the medical profession. It will lower it and continue in that process as compulsory health insurance would be "progressively applied." The Commission has expressed the belief that what it offers to pay doctors is adequate. The medical profession in the Province has refused the offer by an overwhelming majority. That means, and there is no other conclusion to be reached, that in a new measure of compulsory health insurance, or by amendment of the present legislation, the taxes will be increased.

The people, were they to give an affirmative answer to the plebiscite of June 1, will be voting blindly, because they do not know the character of the future legislation and they do not know what taxes they will have to pay under it. The prospective beneficiaries of State Medicine, which it is designed should cover everyone (except indigents) ultimately, are being asked to vote for an unknown plan, with unknown taxes to be applied for its operation. All they can know for certain is that the taxes, as outlined in the present Act, must be increased if such legislation is to be made operative. The voters are expected to record an unqualified "Yes" or "No" on the plebiscite. Since they will not know what they are committing themselves to, the answer should be overwhelmingly in the negative.

## THE PRIVY COUNCIL

The criticism which arose during the recent session of the House of Commons on the subject of judgments rendered by the Judicial Committee of the Imperial Privy Council is described by The Fortnightly Law Journal as the "sheerest charlatanism," where "the politician like the medicine man and fakir of the old country fair preys on the gullibility of the public." The criticism indicated that the Judicial Committee had pro-Dominion or pro-provincial trends in some of its decisions, "as if," says The Fortnightly Law Journal, "that court veered and spun with every changing wind of political opportunism with its ear to the ground to detect every change of public sickness." It goes on to voice the opinion that the Judicial Committee commands the high-

est respect in the world, and yet, in Parliament, it was described by a member as a relic of colonialism. To this The Fortnightly Law Journal replies:

"If that Court be the relic of Colonialism that the politician would have the public believe, then it is the quintessence of all that was finest in that Colonialism that built the Empire as it is and made Canada a nation in the shortest time that nationhood was ever attained. So the politician plays to the gallery. Were he capable of a finesse far beyond his powers, we would almost suspect this to be a subtle attempt to subordinate the Courts by holding them up to contempt and destroying public confidence in their integrity. But that would demand intelligence, and intelligence beyond the crass ignorance displayed by the political critic of the Privy Council."

## AUSTRIA'S PROBLEMS

News dispatches about European intrigues and policies seldom convey a correct picture of the situation in Austria. It is generally known that Germany desires to acquire the country, and there is a great deal of Nazi propaganda in progress. Italy desires to maintain Austria's independence, but whether that wish is combined with a determination to maintain the present form of government at Vienna remains obscure. There are, in fact, many opinions about the future of Austria, some of which do not take into account what Austria is thinking herself. That country strongly resents the efforts of certain Powers to prevent her from governing herself as she wishes.

It is an open secret that the present Government in Vienna favors the restoration of the Hapsburg dynasty. It is likely that a majority of the people think the same way. Intimations have been given Austria that the Archduke Otto must not return to Vienna, and the effect of these has been to make an increasing number of Austrians desire such an event. Sir Charles Petrie, writing in The English Review, says that the Archduke does not claim any territories beyond Austria with her present boundaries. Moreover, he says he would not take the title Emperor. The probability is that ultimately the Archduke will become head of the realm. In the meantime Sir Charles protests that Germany's attempts to implicate Italy in her anti-Hapsburg activities "is a flagrant violation of her undertaking of last year not to interfere in the internal affairs of Austria."

The least the voting public may expect to learn from the Government is whether or not the purpose is, if the plebiscite on compulsory health insurance is answered in the affirmative, there will be amendment of the present legislation or an entirely new Act? If there is to be a new Act what will its provisions be? As matters stand, the people will be voting for or against the present legislation, and for or against the extension of its provisions.

"There is still one place in the world where we can find peace—the heart of a child," says Mr. George Jessel. As the child grows up that heart becomes corroded by material things, if it allows the birthright of spirituality to become muffled.

## WISE CHILD

They told me, "Castles in the clouds  
Are not the place for men."  
And so I bought a bungalow  
And was a citizen.

But every time the towered clouds  
Loomed sudden overhead,  
The neat assurance of my mind  
Was much discomforted.

I saw the castles of the clouds  
Drift vast and heaven-whitening . . .  
And knew that there superbly dwelt  
The Rainbow and the Lightning.

## Note and Comment

By Sandham Graves

A spite fence forty-five feet high and 200 feet long is being built in the Eastern seaboard of this continent to the order of the widow of a Boston college professor. The fence, say Eastern dispatches, will be erected four feet back from the property line and will be made of matched planks standing higher in the air than a normal house. On the other side of the fence, on adjoining property, is a much puzzled yachtman, whose decision to build a small summer hotel for yachting folk is said to have caused all the fuss. Looked at that way, a spite fence seems like a waste of effort, besides being very ungracious; yet even nations have built spite fences in their day. If the yachtman had been wise, he would have invited the widow to christen the clubhouse, offering her the title of "honorary commodore." Few women could resist a uniform, with a yachting cap.

Down in Nebraska where successive crop failures have diminished seed grain there lives a sturdy farmer who piled oats and rye surplus from his crop years in 1934 and 1935 in two large mounds outside his barn. Though last year was poor for crops in the arid soil of that particular district, this farmer has not wanted for seed grain, nor for feed for stock in the lean winter months. The Associated Press in telling of the incident quotes the farmer, as follows: "There is no use talking, we cannot have good crops here all the time, and I believe we should keep something in reserve." He got his idea, he added, from the Bible. So wise men still live in the East.

Three years ago two Baltimore boys dug a hole in a neighbor's cellar to bury the records of their "secret society," a small boys' club. As the hole widened and deepened the diggers struck something solid. Talking eagerly about buried treasure, but not really expecting it, the boys uncovered an ancient cache of gold coins. The coins were valuable and brought \$18,500 on the open market when sold. That was in 1934. A court battle ensued to see to whom the treasure belonged. The boys won though they did not live on the premises nor had they any connection there. For a while their secret society had more funds in the treasury than is probably the case with all similar organization on this combined continent. Then owners of the property commenced a long court battle for possession of the treasure. It is still continuing after three years. Along about now it won't matter very much who wins this suit; the treasure, like the fabulous fortune in Chancery told of by Dickens, will be consumed in the courts.

I knew the trailer fad would be productive of surprises. Baulked in the taking of an efficient census of its human and perambulating population, our friendly neighbor to the south has commenced a serious census of game animals in national parks. Small, clip-shaped balloons known as "blimps" are being sent up into the air, so that observers may count herds of buffalo and elk. Airplanes are to criss-cross national parks in an effort to count the heads of deer, bear, moose, mountain goat and so on. There is going to be some difficulty about this, I foresee, because the animals will move each day, and may become repeaters in the official animal census. Then, how about the raccoons and other four-footed creatures who move by night? In the long run the animal census will be no more easy to secure than one of human beings. Noah did it, but he had the help of the ark.

Kissing the Blarney Stone on your back simply does not work. I said as much six months ago, when a distinguished visitor from the continent tried it. No sooner did he return home than he was kissed by a strange woman at a public and official dinner. He blushed. He had hardly lived that down, when a man to whom he had once promised the custody of a postoffice, sued him because someone else had been made postmaster in his absence. Two postmasters and only one postoffice, that is now his dilemma. I wish him luck, but I fear the outcome. He should have hung by the heels at Blarney Castle.

## Rather Thick!

The best one we've heard this week concerns the innocent soul, who, after reading a front-page story in a local newspaper, walked into his home and innocently declared, "Boy, what kind of insects are these 'Aurora' bugs? I read where they were so thick they even stopped telegraph communication today."—W.F.F.

## Table Display

Congratulations to Miss E. M. Macrae, the general convenor of the decorated table display. The affair was most successful and enjoyable. Congratulations also to Mrs. E. C. Lewis, her winning table was one of the prettiest to be shown in the past three years. We think the public showed very good judgment in voting Mrs. W. C. Merston's lovely floral arrangement the most popular. May we offer a suggestion to the Victoria Business and Professional Women's Club? Next year could the affair be arranged for late Summer or early Autumn, so that contestants could use the garden flowers of that time of year, such as dahlias, sinlins, chrysanthemums, Michaelmas daisies, etc.—R.F.G.

## Prosperity in 1861

"Do you know what Governor Douglas said of Vancouver Island in 1861?" asked a former M.P.P. when I called upon him recently. I admitted that I did not. He read to me from the 1911 Year Book (Coronation edition), edited by the late R. E. Gossell, once librarian of the Legislative Assembly: "The colony is self-supporting and self-defending all the expenses of government. It presents a studied contrast to every other colony in the British Empire, and like the pine of its own storm-beaten promontories, it has acquired a slow but hardy growth." There are many who wish the record could be said in 1937, and of the years between. I was also asked for the Latin, and the translation of the motto beneath the coat of arms of the province. In case you are not familiar with it, it is "Splendor Sine Occasu," "Splendor Without Diminution."—B.G.

## Mr. McAnenna Speaks

Talkative Jack McAnenna, whose "we were robbed" failed to register with Victoria followers of the padded mitt game, apparently does not like the Capital City fans and, according to a Mainland sheet, advises against boxers coming here for scraps. Mr. McAnenna, in case you are not acquainted with the gentleman, is the manager of Al Ford, dusky Vancouver boxer, who lost on a foul to Tim Keist, Victoria welterweight, last Saturday night at the Empire Theatre. Ford's boss is reported to have said that Tim Keist claimed a foul every time he was hit in the tummy. He further goes on to say that the Victoria boy told the referee he did not feel like fighting any more. McAnenna certainly talks a good fight and paints a good word picture of his protégé. Ford is a fair boy, and in our opinion, would make things interesting for Keist anytime the pair stepped into the ropes. We like to give credit where credit is due, but when McAnenna goes off half-cocked and figures that Keist quit (that's how it looks by his statements), he is barking up the wrong tree. No, sir, Keist is no quitter. He was hit low, in the opinion of Referee Roy Baker, a former fighter who has been calling fights for many a day, and that's all that matters.—S.T.

## Better Late Than Never

Looking forward to successful business on the Mainland, a local man boarded the night vessel for

Vancouver with a group of friends who were intent upon a game of poker to while away the still hours of darkness. He declined to join the players, and retired to the peace and quiet of a comfortable stateroom after leaving a call for 7:30 o'clock in the morning. Whether a steward forgot to call the businessman, or whether he failed to respond to knocks on the door, was never definitely settled. A few moments after 10:30 o'clock the Victorian sprang out of bed to find the vessel had touched at Vancouver, departed, and was passing Brockton Point en route to Vancouver Island. He dressed in a matter of seconds and literally flew up to the bridge to interview the vessel's captain. A few seconds later the obliging master wired Vancouver for a fast tug. Soon the man who overslept was aboard the tug en route to his interrupted visit to the terminal city. . . . A young woman who signed herself "E.S.C." wrote to B.G., who is also known as "Basil," making certain complaints about G.B. Several persons think G.B. and B.G. are the same person. Although we are both large men as far as weight goes, we are actually two different persons, even if our patient readers will not have it so. . . . We wonder if factories are to be equipped with sitting rooms to take care of future sit-down strikes.—G.B.

## Glancing Over Sport

The first football game played under floodlights took place in Sheffield, England, back in 1878. It was on October 15 and was held under electric lights with 8,000 candle power. Thanks for the information, G.B. . . . Shanty Hogan, catcher for the Washington Senators, is the heaviest man in the major leagues. He tips the scales at 230 pounds. . . . Pam Barton, the English girl, who holds the British and American amateur golf championships, is only nineteen years old. . . . Robert L. Ripley, of "Believe or Not" fame, made a bad error in one of his recent cartoons. Bob stated that Elton Hoggatt, Detroit pitcher, was in the world series of 1934 and never saw a game. Ripley forgot to look up the record book, for it showed that Hoggatt worked in four games for the Tigers. Robert L. said that Hoggatt spent all the games in the bullpen at the back of the grandstand warming up. . . . Connie Smythe, manager of Toronto Leafs, states that Charlie Conacher, ace forward and scoring star, will be playing defence for the Queen City squad next season. He should team up well with burly "Red" Horner on the back division. . . . Tulsa Stenos basketball team, which will meet Edmonton Grads in a challenge series for the North American women's title, want to play several games on the Coast if arrangements can be made. They want fixtures in Victoria, Vancouver and Seattle.—J.D.

A committee composed of Mayor Andrew McGavin, Aldermen John A. Worthington, Edward Williams and W. Lloyd Morgan expects to hold a sitting this month on the city salary question, Alderman Worthington, the chairman, states. Pay lists of every city department with service details of employees are in the course of preparation for the committee. It is anticipated that recommendations will be made to the City Council for pay increases to a number of employees in the lower brackets.

The time used is Pacific standard time for the 1937 Meridian west. It is computed from 10:30 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water. When tides occur in the table, the life rises or falls continuously during two successive tidal periods without turning.

The height is in feet and tenths of a foot, measured from the average level of low water.

To find the depth of water on the sill of the Esquimalt drydock, add 18.5 feet to the height of high water as above given.

## A Friend to the Aged As the Years Creep On

In the later years of life we start to lose that snap and vigor of our younger days. The blood does not circulate as it once did, the vitality is on the wane, and the nerves not just as steady as they used to be. Little sicknesses and ailments seem harder to shake off, and evidence of a breakdown begin to appear. Those who wish to maintain their health and vigor and retain their energy should use Milburn's H. & Nerve Pills at this time of life.

# GOVERNMENT IS ASSAILED

## R. A. Wootton Predicts Victory for Conservative Party in Coming Election

R. A. Wootton, president of the British Columbia Conservative Association, was the speaker at a community sing-song and variety programme held in the Conservative Rooms, Campbell Building, last night.

Voicing his confidence in a victory for the Conservative party in the forthcoming election, the speaker attacked the present Government for what he termed "incompetency." Mr. Wootton also directed his attack on the health insurance measure of the Pattullo administration.

When this act was brought before the Legislature, he said, the Government found it would be unable to pass it without the help of the Opposition, and it was only with the support of the C.C.F. party that health insurance was put through the Legislature. The speaker claimed public opinion was strongly opposed to the bill, so Mr. Pattullo offered a referendum, asking the people if they would be in favor of a revised form of health insurance. By this step, the Government showed its weakness, he said, and should have dropped the whole thing and called for a general election.

## FORMER ATHLETE CALLED BY DEATH

Harold W. Fetherston, Well-Known Ball Player, Passes After Lingering Illness

Prominent in Victoria athletic circles a few years ago, Harold Wilson Fetherston, 504 Toronto Street, passed away yesterday morning after a lingering illness. Born in Bearsden, Glasgow, thirty-four years ago, the late Mr. Fetherston came to this city with his parents when he was four years old, and resided here ever since.

He was educated at Cedar Hill and Victoria High Schools, and for many years was prominent in Victoria sports circles. He played first base for the C.P.R. and U.C.T. ball clubs about 1922 and was a keen tennis enthusiast.

He is survived by four sisters, Mrs. Charles F. Campbell, Mrs. E. P. McGowan, Mrs. Dorothy Angus and Miss Phyllis Fetherston; a niece, Mrs. Cowper Newbury, and a nephew, Ronald F. Campbell, all of Victoria, and one nephew, Kenneth W. Fetherston, Ladner, and his fiancée, Miss Louise Maxwell, Vancouver.

Funeral services will be held on Monday afternoon at 3:15 o'clock from Hayward's B.C. Funeral Chapel.

## FLOWER DISPLAYS ATTRACT THROGS

Continued from Page 1

SHOW ENTERTAINMENT

During the afternoon and evening, a three-piece orchestra furnished music in keeping with the gigantic floral display. Pupils of Mrs. Dorothy Wilson gave a dance programme at 8:30 o'clock, which will be repeated this evening.

Myriads of cultivated and wild flowers, trees, shrubs and Alpine plants formed one of the largest and most spectacular Spring Flower Shows ever staged by the Vancouver Island Horticultural Association. In the centre of the building a waterfall supplying a quiet pool bordered by rock plants commanded much admiration.

Horticultural branches of the Federal and Provincial Governments had a comprehensive display of "breaking" in tulips and control of the disease. Commercial exhibits included flowers and shrubs of many varieties, rare native and foreign Alpine plants, garden tools, fertilizers, and garden, rock pool and goldfish bowl ornaments.

## NON-COMPETITIVE CLASS

Non-competitive displays included Lake View Gardens' exhibit of rare plants and ferns, and N. E. Plaxton's collection of forty-five varieties of tulips, including the new Sirene and Avis Kennicot.

Victoria, Langford and Royal Oak Women's Institutes had tasteful displays of Spring flowers and shrubs, both wild and cultivated.

Women's Workshop Shop showed garden aprons and lavender bags. The Society for the Preservation of Native Plants of British Columbia had an exhibit of wild flowers and photographs of them in their native state.

Victoria Horticultural Society district display featured tulips, primroses, flowering dogwood, heather, pansies, wallflowers, erythronium and other flowers. North and South Saanich Horticultural Society had a combination exhibit of a forest scene next to a tiny rock garden.

Continued from Page 1

scene, she reported to her flagship, the battleship Royal Oak. Bilbao itself was quiet today, with 30,000 troops in trenches to withstand insurgent siege and an army of 10,000 to harry the insurgent army on its drive from Durango, twenty miles east of here.

Disappearance of the Espana left the Madrid-Valencia Government in possession of Spain's remaining capital ship with twelve-inch guns—the Jaime I—and apparently with the upper hand at sea.

## NAVAL FORCES

Naval and air experts were quick to argue significance of the attack because of insistence by many in the past that a plane never could sink a battleship.

The twenty-four-year-old Espana, however, was equipped with only a one and a half inch deck sheeting and an eight-inch belt of armor plate. She did not have the roof of heavy armor which protects modern warcraft.

## JOY BUT NO RELIEF

MADRID, April 30.—Sinking of the insurgent warship Espana by Government airmen in the Bay of Biscay today brought rejoicing but no relief from bombardment to tired Madrid.

Insurgents again poured shells into the centre of the city, killing two persons and wounding fourteen. Most of the shells fell in the Gran Via and the Puerta del Sol.

Because May day was expected to produce an intense bombardment of the city tomorrow, there will be no parades down the Castellana—intruders might use them for targets. Instead of a celebration such as was staged last year, the Government called for intensified work, "particularly in war industries."

## Charles Hardy of Nanoose Passes

NANAIMO, April 30.—Charles Hardy, pioneer lumber man of Nanaimo district and one of Nanaimo's real old pioneers, died today at the age of seventy-one.

He was born in Woodstock, Ont., and was engaged in real estate here in the early days. He was a past master of Ashlar Lodge, A.F. & A.M., Nanaimo, and the first master of Concord Lodge, Parksville. He is survived by his wife; two sons, Horton and Richard M. of Nanoose Bay, and five daughters, Mrs. J. T. McNeil, Chicago; Mrs. T. J. Keller and Mrs. E. Marshall, Vancouver; Mrs. James Alaridge, England, and Mrs. William Doran, Nanoose Bay; two sisters, Mrs. G. A. McNeil, Penicton, and Mrs. M. Keller, Nanaimo.

The funeral will take place on Sunday afternoon at 3 o'clock from Jenkins Funeral Chapel under the auspices of the Concord and Ashlar Masonic Lodges, with the Rev. A. G. Bagshaw, Parksville, officiating at the services.

# Social Activities and Notes of Personal Interest

## Visitors Rise Early to Tour Local Gardens

Buses lined the sidewalk in front of the Empress Hotel yesterday morning waiting to take the hundreds of out-of-town visitors around the Victoria gardens. Some of the enthusiasts rose at 7 o'clock in the morning in order to see Mr. Butchart's gardens as well as going on the ordinary tours. In the afternoon the great throngs of visitors attended the Flower Show at the Willows.

Mrs. Walter J. Britten, Seattle, who organized the two-day tour of 300 Washington garden lovers to Victoria, hinted at the possibility of another and longer tour next year. She and her friends from the United States were enthusiastic in their praise of Victoria gardens and of the hospitality shown them.

Not only were there visiting gardeners from Seattle, but also from Bellingham, Mount Vernon, Tacoma, Enumclaw, Renton, Maple Valley and other points in Washington, and even included a few from Connecticut, Montana, Virginia and California.

officers of the three branches made preliminary arrangements. The entertainment programme for the garden party is under the convenership of Mrs. M. W. Mackenzie, president of the afternoon branch, and the tea will be convened by Miss Margaret Hill, president of the evening branch. Further arrangements will be made, and the members hope to repeat the successful and well-attended event of last year.

Final arrangements have been made by St. Mark's W.A. for a Coronation tea and exhibition of former Coronation and Jubilee souvenirs, to be held at St. Mark's Hall, Cloverdale, on May 7, from 3 to 6 p.m. There will be a home-made candy stall in charge of Mrs. E. ## Health Centre At Cowichan Has Election

DUNCAN, April 30.—The annual meeting of the Cowichan Health Centre, which was established here seventeen years ago, was held yesterday afternoon at the I.O.O.F. Hall, Mrs. H. Graham, the president, in the chair. The president read a comprehensive report of the year's activities, and the supervisor, Miss Heather Kilpatrick, B.A., B.Sc., gave a detailed account of the work done by the Health Centre staff.

This work included school services to the Duncan Consolidated, Chemainus, Crofton, Westholme, Mayo, Hillcrest, Glenora, Kokilash, Fairbridge, Cowichan Station, Bench, Cobble Hill, Shawinigan, Sylvania, Mill Bay, Lake Cowichan, Youbou and Camp 6. Many baby clinics have been conducted, meetings and classes held, beside nursing work arranged at the annual Sweet Pea Festival and the Cowichan Fall Fair. Mrs. Thomas Pitt presented a very satisfactory financial report.

### WORK PRAISED

The chief speaker was Dr. Amyot, assistant to Dr. Young, who gave an address on the work being done for public health in British Columbia. He touched on the high standard of efficiency required in British Columbia for nurses in the public health service, spoke of the establishment of the health unit at Saanich, the Peace River unit, and on the formation of the Metropolitan Health Department, the only one in North America. This department, the headquarters of which is in Vancouver, consolidates the work of all the separate units in and near Vancouver, insuring greater facilities for specialized treatment of disease.

Other departments for guarding public health referred to by Dr. Amyot were the provincial laboratories, the traveling and stationary clinics, the anti-tuberculosis programme, the mental hygiene programme, behavior clinics, and the department of venereal diseases.

### COMMITTEE RE-ELECTED

The Health Centre committee from last year was re-elected as follows: Mrs. H. Graham, president; Mrs. T. G. Robson, secretary; Mrs. Hugh Savage, assistant secretary; Mrs. Thomas Pitt, treasurer; Duncan representatives, Mrs. C. M. Macgregor, Mrs. H. P. Prevost and

Norway has a Christian Listening Society which listens-in to the radio programmes and brings pressure to bear upon the authorities for better and Christian material in speech and song.

The British Broadcasting Corporation gives about 5 per cent of its time to religion, either as services or talks on religious subjects. The director of religious broadcasting is a clergyman of the Church of England.

The new station KHHA, in Shanghai, China, was made possible by the generosity of a number of Chinese Christians. Its daily nine-hour programme includes worship services morning, noon and evening, talks on home problems, concerts, lectures and a story-hour.

**CHAPTER XXXVIII**  
Sandra turned back to the first page of The Flash and fixed an appraising eye on the makeup. "You would be surprised how easy it is to find out other people's business," she said. She was silent for a time, reading, then: "Sloppy lead, that," and looked up, grinning.

"Yes, yes," David said, lifting an eyebrow. "Too bad their star reporter left 'em flat. They'll probably fold up in a week or two."

But Sandra's thoughts were elsewhere. "I wonder," she said, "what sort of place Maple Village is. It sounds so cool and quiet and—tranquil."

"Be able to tell you before long," David grinned. "Told Father to-night I'd like to take some time off. Want to go along?"

Her slanting gaze chided him, gently. "No, darling. And after a moment: 'Your match-making campaign started a little too late. David, I've got an appointment to go to the marriage bureau with Stephen as soon as I can navigate.'"

A cloud passed over David's face. His eyes dropped and for a moment his gaze was fixed, vaguely, on the folded tabloid in his hand. Then, with a brief shrug—not realizing his sister was watching with frank amusement—he turned and left the room.

Three weeks passed, and it was April, and Dr. Coleman said to Chet in the latter's office one afternoon. "Sandra isn't picking up as fast as I had hoped she would. Charles, I think you'd better look around for some place in the country. You will have to take her away before it begins to turn warm, anyway. How about your place in Maine?"

"You're the doctor," Chet said. "I'll speak to Enid about it to-night."

Stephen dined with them that evening and when immediately after dinner Sandra retired according to schedule, Stephen and David set up the bridge table and opened one of their slow-motion chess games.

Chet told Enid what the doctor had said, and was a little surprised that she offered no protest. Enid merely shrugged.

"Maine?" David said, waiting for Stephen to move. "It's a little early, isn't it?"

"Dr. Coleman's orders—for Sandra," Chet explained. "Some place in the country, at least."

Stephen said, not taking his eyes from the board, "Lake Winnemauw is ideal. She liked it up there last summer. She'll probably be glad to go back." Suddenly, as he took one of David's pawns, he remembered a

## To Consider Everlasting Punishment

"Everlasting Punishment" will be the subject of the lesson-sermon in all Churches of Christ, Scientist, on Sunday. The golden text is: "Evil pursueth sinners; but to the righteous good shall be repayed" (Proverbs xiii, 21).

Among the citations which comprise the lesson-sermon is the following from the Bible: "For ye were ye light in the Lord: walk as children of light" (Ephesians v, 8).

The lesson-sermon also includes the following passage from the Christian Science textbook, "Science and Health With Key to the Scriptures," by Mary Baker Eddy: "Reason is the most active human faculty. Let that inform the sentiments and awaken the man's dormant sense of moral obligation, and by degrees he will learn the nothingness of the pleasures of human sense and the grandeur and bliss of a spiritual sense, which silences the material or corporeal."

On Ascension Day, May 6, there will be celebrations of the Holy Communion at 8 a.m. and 10:30 a.m. The latter service will be preceded by an ordination service, when E. W. On Thursday, being Ascension Day, there will be Holy Communion at 10:30 a.m.

## SERVICES DIFFER MUCH IN LENGTH

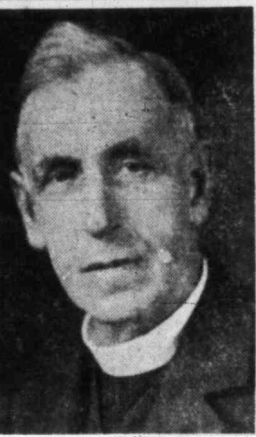

King Edward VII's Coronation Was Shortened on Account of His Recent Illness

The length of the Coronation service varies from time to time, according to The Manchester Guardian. "Queen Victoria reached the Abbey at a little after half-past eleven (and in her case the procedure was simplified by the fact that there was no consort), but she did not enter her carriage to return till half-past four."

"There was a special reason for a desire to make the time as short as possible in the case of King Edward VII, for he was not long recovered from his illness. Even allowing for a rather long interval while the Te Deum was sung to give the King a chance of rest and refreshment, he was in the Abbey only two hours and a half."

"King George V's Coronation was well managed and his procession left just after two. But John Morley found the ceremony fatiguing. Comparatively early he said that 'he felt he had reached the extreme point of exhaustion,' and then he reflected, 'What a glorious moment to die.'"

## Will Revisit Home in Ontario

REV. S. RYALL, B.A.

Rector of St. Luke's Church, Cedar Hill, will shortly leave, with Mrs. Ryall, on a motor trip which will take them to their homes at Paris, Ontario. Before coming to St. Luke's, Mr. Ryall was rector at Nanaimo.

Rowell, will preach.

This is the fifth in a series entitled "Men, Their Spiritual Difficulties, and Christ." The Lord's Supper will be observed at the close of the service.

At the morning service, the pastor will continue the series on "Amazing Unwilling of the Glory of Christ: The Tabernacle in the Wilderness," the subject being "The Symbol of the Rejected Christ: The Outside View and the Inside Experience."

## SACRED CANTATA AT ST. ANDREW'S

Mrs. Induk Pak, of Seoul, Korea, Will Be Guest Speaker in Morning

If May 1 is your birthday, the best hours for you on this date are from 10:15 a.m. to 12:15 p.m., from 2:15 to 4:15 p.m., and from 8:15 to 10:15 p.m. The danger

periods are from 8:15 to 10:15 a.m., from 4:15 to 6:15 p.m., and from 10:15 p.m. until midnight.  
Misunderstandings are liable to put a severe strain on friendships this day, so be slow in placing an adverse construction upon anything a friend says. Nature may play some capricious pranks, especially in the way of optical illusions. You may discover that at

times it pays to look twice at the same object. Handle fluids with care, for through the spilling of them a good deal of damage is liable to occur. You may not have to look further than the length of your nose to find something you are anxious to see. Visibility may play an important part in exposing puzzling occurrences. The average housewife will be show-

ing good judgment if she arranges to be prepared to entertain an unexpected guest, for she is liable to have one or more this day. Married and engaged couples, and those who have discovered that they are deeply in love, must be careful that some little-tattle does not disconcert them to the extent that they will become quarrelsome. If a woman and May 1 is your

birthday, you have a good disposition, but a quick temper. You are sincere, have a depth of affection, but are capable of disliking people intensely. Your love for pretty clothing and artistic things makes you discriminating in your buying. Your eyesight ought to be excellent, if it has not been subjected to strain. You most likely have a vigorous way of expressing

yourself, especially if you are enthused over anything. It appears you should have your full share of good fortune, and any streak of bad luck will be of a very short duration. As a teacher, artist, author, actress, secretary, librarian or business woman you will be able to do well financially. In your selection of a husband sound judgment is likely to be displayed.

The child born on May 1, probably will have a poetic imagination, and by the time it reaches its teens display a considerable talent for writing. This youngster will be ambitious and sufficiently aggressive to push its way to the top. If a man, and May 1 is your natal day, sooner or later you ought to prove yourself to be a money-maker. You should have a great deal of

ability. As a lawyer, doctor, chemist, scientist, financier, broker, salesman or actor you probably will win a rating above the average.

## Dean Twirls Third Straight Triumph; Yanks Are Stopped

Cardinals' Ace Pitcher Continues Brilliant Mound Work as He Beats Reds, 7-1—Giants Win and Pirates Lose—Senators Halt American League Leaders—Tigers Defeat Indians

### NATIONAL LEAGUE

ST. LOUIS, April 30 (AP).—Dizzy Dean ran his string of victories for the season to three and his strikeouts to twenty-six, but the colorful pitcher failed today to keep the Cincinnati Reds from scoring a lone run that broke his shutout streak at twenty innings. Dean fanned six.

Giving Dizzy fine support, the St. Louis Cardinals punched Gene Schott and Don Brennan for ten hits to win 7 to 1 and strengthen their position at the head of the National League. The Cards' hits included a home run and five doubles.

Roy Parmelee kept ten hits well scattered. Paul Waner drove out a triple in the eighth to give him the record of 163 three-base hits, surpassing the mark held by Pie Traynor among present-day players in the league.

Carl Hubbell more runs than they've given him in years today and clubbed the Brooklyn Dodgers 11 to 2 for "King Carl's" second straight victory of the season and eighteenth straight in league competition.

Mancuso, Ott, Ripple and Jo Jo Moore all walked home in a more surprising slugging attack than the National League champions have shown in a long time, to back up Hubbell's seven-hit, nine-strikeout pitching.

**American League**  
WASHINGTON, April 30 (AP).—Buck Newsom gained partial revenge against the New York Yankees today for the sound clubbings he received at their hands every time out last year.

Making his 1937 debut, the Washington Senators' right-handed hand-cuffed "murderer" row" with five hits and pitched the Nats to a 4-to-1 victory, ending the Yanks' five-game winning streak.

A shaky start by young Kemp Wicker enabled the Nats to do all their scoring in the first two innings and to collect all their six hits in the first three frames. From the fourth on, Wicker and his successor, Rookie Frank Makosky, pitched hitless ball.

Newsom was anything but the "cousin" to the Yanks that he was last year. Their only run came in the sixth, on a walk, a force out and George Selkirk's triple, his second of the year.

Joe Di Maggio, out of the Yankee line-up so far this season while recuperating from a tonsilectomy, made his first 1937 appearance as a pinch hitter in the seventh and singled. He will be in the Yanks' starting line-up in centre field tomorrow at New York.

## Exhibitionist Wins Close Contest in Newmarket Event

Sir Victor Sassoon's Filly Gains Half-Length Victory Over Spray in the One Thousand Guineas—Steve Donoghue Rides Winner—Gainsborough Lass Third and Fieldfare Fourth

NEWMARKET, Suffolk, April 30 (AP).—Running confidently under the experienced guidance of Steve Donoghue, Sir Victor Sassoon's three-year-old filly Exhibitionist fought out an exciting finish with Major Harold Cayzer's Spray to win the One Thousand Guineas by half a length today.

The filly covered the mile in 1:44 4-5 seconds, better than Le Kasr did over the same distance in winning Wednesday's Two Thousand Guineas.

However, Spray, although beaten, finished stronger than the winner, and Turf critics were quick to predict the positions would be reversed in the Oaks, second of the classics for fillies, which will be raced over the longer Derby distance of one and a half miles.

**FINISHED THIRD**

A head behind Spray, in third place, was the 10- to 11-odd favorite, Sir John Jarvis' Gainsborough Lass, which ran prominently throughout but failed to show the necessary stamina on the rising ground close to the finish. Over the final yards she came again to snatch third place from Giles Loder's Fieldfare.

Only filly entered for the Derby, Gainsborough Lass, on the basis of today's performance, was not conceded much chance of beating the colts in the blue ribbon event.

The winner paid 10 to 1 to his backers and returned about \$35,000 to his owner. Spray started at 100 to 6.

Donoghue, up on Exhibitionist, rode with remarkable dash and brought in his first One Thousand Guineas winner in his long career. All the other classics he had won—the Derby six times, the Two Thousand Guineas three times and The Oaks and St. Leger twice each—but always had failed in the junior fillies' classic. Now fifty-two, he expects to retire at the end of this season.

The going today was better than in the Two Thousand Guineas, and a large crowd watched the event run in glorious sunshine. First in the break from the starting line were Pack Ice, Lover's Path and Gainsborough Lass. Exhibitionist raced by herself. At the halfway post, First Flight and Lover's Path were disputing the lead, with Gainsborough Lass, Exhibitionist and Spray close behind.

### Regina Bowlers Claim New Mark With 1,523 Total

REGINA, April 30 (AP).—Pete Gottselig and Sandy Kidd, two of Regina's foremost ten-pin bowlers, claimed a world's record for two-man teams after rolling 1,523 here today. Including a 300 game, the fifth perfect of his career, in his string, Kidd rolled the amazing total of 799, while Gottselig was contributing 724. Four years ago this pair rolled 1,512 and sought official recognition from the American Bowling Congress, but they were informed that, in 1927, Roy Johnson and George Skeen, Denver, Colorado, had piled up 1,518 pins.

## PROLONG SERIES BY 28-23 VERDICT OVER VARSITY HOOPSTERS

Ontario Quintette Stays in Running for Dominion Basketball Title by Turning Back University in Third Game Before 4,000 Fans—Wiseman Stars—Fourth Game Tonight

By IVAN CORRETT  
Canadian Press Staff Writer.

FORUM, VANCOUVER, April 30 (AP).—Windsor Fords flashed a brilliant attack to defeat University of British Columbia Thunderbirds, 28-23, here tonight, in the third game of the Canadian men's basketball final, and prolonged the series to at least four games.

The British Columbians won the first two games, 31-29 and 31-30. Setting at rest rumors they had called their star centerman from Windsor by air, Fords took the floor without Julius Wiseman, who remained at home when the team made the western trip, and ripped past the Coast guard at will, scoring nine points without an answer in the first ten minutes of the game. Windsor was never headed throughout the game, leading 13-8 at half-time.

Referee Jewell called numerous fouls on Windsor in the early minutes, but the Collegians were unable to make them count.

Malcolm Wiseman's three field baskets and free toss were largely responsible for Windsor's first half lead.

**FORDS SHOW CLASS**

The Fords, who ran into tough breaks in the first two games, just before the final bell in each case, took no chances tonight, and were faster at getting back under their own baskets to defend it from the fast-breaking Collegians.

Wiseman was the classiest man on the floor, and shared scoring honors with Varsity's Jimmy Bardsley, each with seven points.

Fourth game of the series will be played tomorrow night with a fifth, if necessary, Monday night.

Half an hour before game time, all gates to the Forum were locked, as 4,000 hoop fans, largest Coast crowd of the season, jammed into the building.

Wiseman opened the scoring for Windsor four minutes after the start with a field basket, and Red Nantais made it 4-0 after Varsity had missed three free shots.

Wiseman scored his second field basket to give the champions a 6-0 lead with seven minutes gone, and then increased it to 7-0 with a free shot. Aitchison looped a one-handed field goal to give Windsor a 9-0 edge, and Varsity sent in Bill Swan for Bardsley.

Swan opened the scoring for Varsity with a field goal at the ten-minute mark, but Wiseman again sank a long shot to give Windsor an 11-2 advantage. Swan bagged a free toss to make it 11-3. Norman Dawson replaced Nantais, and Phil Fields replaced Aitchison for Fords.

**AMERICAN REFEREE**

Referee Earle Jewell, Bellingham, Wash., official imported for the remaining games of the series, was

calling many fouls against Windsor, but the Varsity sharpshooters were having an off-night on their free shots.

Art Willoughby finally sank a free toss, and a few minutes later a field basket, to bring the count to 11-6. Bardsley went in for Willoughby and Eddie Armstrong was sent on for Matthison, the first time the latter has left the floor in three games.

Swan brought the score to 11-8 with another field goal, and Windsor called time out.

Toots Meretsky, after three successive attempts, scored a field basket to make the count 13-8, as the first half ended. Matthison opened the second half, scoring with a free toss. Stewart increased the Windsor lead to 15-9 with a field goal. Ram came back for Varsity with a one-header for a 15-11 score. At the start of the second half, Willoughby went on for Bardsley and Matthison replaced Armstrong. Nantais replaced Wiseman for the Fords.

**FIELDS SCORES TWICE**

Phil Fields gave the Fords a 19-11 lead at the seven-minute mark, with two successive baskets. Bardsley replaced Swan.

Bardsley raised the Collegians' hopes with a field basket to bring the score to 19-13. Wiseman went back in for Nantais. Willoughby brought the Collegians to 19-15. Nantais went on for Norm Dawson. Meretsky put Windsor further ahead at 21-15. Bardsley made it 21-17. Aitchison replaced Fields.

Ralph Henderson sank a free shot to bring Varsity within three points at 21-18. Nantais put the Fords further ahead at 23-18. Bardsley hooped a free shot. Aitchison increased the champions' lead to 25-19. Bardsley put the Collegians back in the fight at 25-21, with 1:30 minutes left to play.

**NETS OWN REBOUND**

Meretsky scored a field basket on his own rebound from a free shot, to put Windsor into a 27-21 lead. Dawson replaced Wiseman with a minute to go. Dawson sank a free shot to make it read 28-21. Matthison sank a fielder to make it 28-23 as the bell went.

## Jane Dixon Says:

AREN'T THERE ENOUGH WILD WOMEN GOING THE ROUNDS WITHOUT TRYING TO DIZZY UP THE TAME ONES?

A girl of seventeen writes that a young man of twenty-seven tells her she is a "cold number" and that she is a "natural for an old maid" because she insists on conducting herself decently and with a certain amount of decorum.

I like plain ginger ale, she explains. When I order it Bill says: With what in it? I tell him just ginger ale and that's the beginning of an argument. He won't believe I hate the taste of strong drinks. He says I'm acting like a prissy and what fun is it for a fellow to date a girl who can't let go and have a time for herself once in a while.

It's the same about cigarettes. I don't object to girls smoking - lots of my friends smoke - but it happens I don't like the taste of tobacco. Every time we go out together he lights a cigarette, hands it to me and when I say: No thanks, I don't care for it, he laughs in a very ugly way and tells me it's just another of my old maid ideas and I'd better forget it if I don't want to be the girl men forgot.

I was terribly hurt on my birthday because he kept telling me that he had a present for me, something I would find very useful and most becoming. He talked about it so much that he had me away up in the clouds. On the morning of my birthday a package arrived, addressed in his handwriting. I could hardly open it - I was so thrilled. Miss Dixon, what do you think it was? A box of a hundred gold-tipped cigarettes and a cunning silver lighter. I sat down and cried for an hour. Then I wrapped them up and sent them back to him with a note, saying I appreciated his thinking of me, but that I knew he would enjoy the smokes and that I could not. He was so disgusted he stayed away for a month.

## DISAGREE ON ENTERTAINMENT

Another difference between us is that he likes to go some places that are not what they should be. He says it's only slumming and that just because we go down a dark street doesn't mean we have to live in that street. Just the same I know if my parents found out I went such places they would never allow him to come to our home again and they would forbid my seeing him or accepting any of his invitations. There are so many bright streets, why should we bother with the dark ones?

I like affection, but there are liberties I will not allow and this makes him furious. He tells me I must have been born in an ice house. I'm sure I love him, and I want him to love me, but when he acts this way I don't know. Maybe he's right. Maybe I am a back number. Am I? - Sylvia.

How this writer wishes she were the champion hammer-thrower of the world and had the young man of twenty-seven by the scuff of the neck. She'd toss him so far it would take him a week to walk back.

## SHE'S NOT A BACK NUMBER

If a girl likes plain ginger ale, that is her own business and no man old enough to know better should try to impose his tastes in the matter of refreshments upon her. Aren't there enough wild women going the rounds without trying to dizzy up the tame ones? And aren't there enough chain-smokers, girls who light a fresh cigarette on the butt of the old one, to welcome an abstainer?

Be careful girl of seventeen. Perhaps your young man of twenty-seven is worthy of your love - but the rule of life is that people who like to play in the muck are muckers. If the young man wants to explore dark streets let him do so on his own. You stick to the bright way and respect your parents' wishes.

The next time the young man gets furious because he can't have his will with you, you get furious, too, and tell him he must have been born in a mad-house.

You are not a back number. You are strictly a modern girl who is using her head for something more than a hat rack.

The Japanese Education Society defines "Jinja" as an act of respect for ancestors performed at public shrines and as distinct from religion. Christian missions in some cases have not taken this view entirely, but in the main have adopted a procedure of accommodation. In Korea the missionaries of the Presbyterian Church (U.S.A.) have conscientious scruples in permitting their scholars to perform "Jinja," and as a result are closing their schools.
